

| | Airsoft | Nerf |
|--|--|--|
| Age Requirements | Must be 8 years or older | All ages welcome! |
| What is included? | Airsoft gun, mask & 1000 BB's for each player | Nerf gun, safety glasses and darts for each player |
| What if some kids have their own stuff? | They are welcome to bring their own gear in as long as it adheres to our field standards however this will NOT change the price of your party | Players are welcome to bring in their own Nerf toys although we ask that you leave your darts at home |
| How long are the parties? | 2 hours unless a custom party is planned for longer (additional fees apply for longer events) | |
| How early can I show up? | Generally 15 minutes before the party begins is plenty of time to set up. We usually have parties booked one after another so we ask that you do not come any earlier than 30 minutes before your event. For private parties, this timeframe is very flexible depending on other private events that day and staffing. | |
| Do I have to stay with the kids? | Yes | |
| Does it hurt? | Sometimes. We recommend a sweatshirt and gloves for new players. Exposed skin stands the risk of the most painful shots. Ultimately, there will be shots that will hurt, and others that will not. | Not usually! The worst we've seen is a slight fat lip from a stray shot, nothing a popsicle can't fix! |
| Can I bring my own food in? | Yes! Some people purchase our food package AND bring in their own. If you are doing 100% of your own food, you are responsible for bringing paper goods including plates and cutlery. | |
| Can I order extra food? | Yes! We offer a food package based off of the "Small" Parties, we can add as you wish with enough advance. | |
